Loose Guidelines for ce107 Final Presentation

(1) Show two floor plans (upper and lower floor). Point out your bathrooms, bedrooms with closets and your staircase.

(2) Mentioned how big it is it (square footage?). What is the reason you think it is a dream house for you (like features, location, size, color, landscaping, functionality, etc).

(3) Show at least 2-3 renderings, preferably 5 or 6. It would be good to show off your well-equipped kitchen, well-decorated interior, good exterior landscaping.

The presentation could be done using Revit (a) by bringing a jump drive, (b) by downloading from a website or email. It could also be given using a power point presentation.
