Coaches

Monday (3:00-4:50pm)	Section 28512	Tuesday (3:00-4:50pm)	Section 28517
Kristi Lu (kristilu) BME, Junior	Jeremy Middleton (jjmiddle) BME (Premed), Sophomore	Rebecca Sekar (rsekar) BME, Senior Marketing minor	Drew Nollsch (nollsch) ME, Sophomore

Course Content (subject to change)

The activities in this class are designed to provide an overview of engineering and science concepts, and to assist in the transition from high school to college. There will be academy-wide distinguished lectures, engineering lab tours, and in-class projects.

Each two-hour class will begin with a 15-minute presentation on an engineering discipline. The first part of class will be devoted to a presentation by experts in different engineering fields, or a lab tour, or a workshop on some college survival skill, such as resume building, using the science/engineering library, and presentation/leadership skills. The second part of the class will involve activities that take advantage of your newly acquired knowledge and skills.

The detailed syllabus (week-to-week activities) will be posted on the class website.

Grading Policy

This is a Credit/No Credit class. You will be graded on your attendance. The coaches will be taking attendance each week, and you can miss up to 2 classes. You are expected to attend the 3-4 academy lectures. The coaches will be organizing two out-of-class events over the course of the semester. You should plan to attend at least one of these events.
